Saleem Iqbal

Flutter Developer

I am a Flutter Developer with strong problem-solving skills and proven experience in designing and building cross-platform mobile applications in a test-driven development environment. I specialize in creating reliable, user-friendly apps using Flutter and Dart, with a focus on clean architecture, performance, and maintainability.

PROJECTS

Zaphri
- Zaphri is a dynamic Flutter application designed for football enthusiasts, offering a seamless experience for players, coaches, clubs, and parents.The app allows users to book sessions with their preferred coaches and offers a comprehensive platform for football enthusiasts to connect, learn, and grow within the sport .

TIB Online (Al Taif Islamic Bank)
- **TIB Online** is the official mobile banking application of **Al Taif Islamic Bank** , a licensed Islamic bank based in Iraq, regulated by the Central Bank of Iraq. The app offers customers a secure and user-friendly platform to perform essential banking operations, complies with Islamic banking principles, local regulations, and Islamic-compliant financial services.

Meeraki Store
- Meeraki is an innovative ecommerce application that offers a user-friendly platform for customers to shop for products and services online. As the lead developer for Meeraki, I oversaw the design and development of the app, ensuring a seamless experience for users.

Sportify
- Users can connect with friends, send and receive friend requests, engage in real-time chat conversations, share and view posts, and create their own content. This multifaceted platform provides a unique blend of music discovery and social interaction, enhancing the user experience in the realm of music and social networking.
